Project Spotlight

ANGLETON ISD

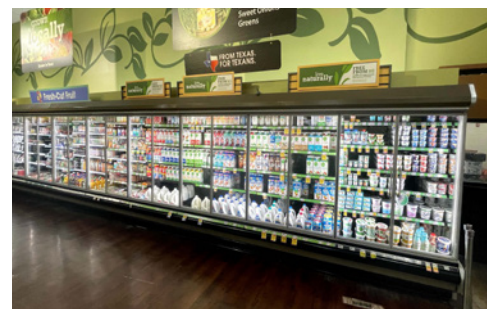

Angleton ISD recently completed a district-wide retrofit of interior and exterior lighting to all LEDs. This retrofit represents an estimated peak demand reduction of over **270 kW** and over **813,000 kWh** per year of consumption savings. For the estimated energy savings, Angleton ISD was awarded over **\$43,000** in cash incentives through the TNMP SCORE® Program.

Project Spotlight

KROGER

Kroger recently updated their refrigerated display cases with new zero-energy doors at two of their locations in southeast Texas. These projects saved Kroger over 65 kW and 344,000 kWh annually. The estimated kWh reduction from this project is equivalent to the carbon sequestered by 299 acres of U.S. forests in one year or the greenhouse gas emissions avoided by 83 tons of waste recycled instead of landfilled.

Kitchen equipment upgrades have been an underutilized measure in TNMP. Contact your local TNMP program rep to find out more about the available incentives for high-efficiency kitchen equipment upgrades.

Benchmarking and Energy Master Planning

Have you ever wondered how your building's energy usage compares to similar ones in the region? Or perhaps you need assistance quantifying which of your facilities have the greatest need for improvement. An energy performance benchmark is a great tool to help you get started! After a custom benchmark report is created, you will be provided with an updated energy use index, energy cost index, and an ENERGY STAR® Portfolio Manager score for each of your buildings. Contact us to find out more about this service that is offered to TNMP commercial customers at no cost.

2022 Program Launch

With the end of 2021 quickly approaching, we are actively accepting new project submissions for program year 2022. The programs are reaching goals faster than ever. Don't hesitate to contact us about future projects you are considering for next year.

Save the date!

The 2022 Program Kick-off event will be held virtually on January 26, 2022. Please save the date and keep an eye out for an email invitation soon. We look forward to sharing achievements from 2021 as well as what's new in the programs for 2022.
